Agenda Item No. 1: [REDACTED] Number 2

1. Introduction

25X1C

It will be necessary to brief senior Agency officials in detail on the proposed [REDACTED] program. In order to dry run the presentation, as well as to acquaint Board members on current details of the proposed program, [REDACTED] made the initial presentation to the Equipment Board.

25X1A

2. Discussion

25X1A

[REDACTED] opened by stating that since the last presentation a considerable amount of additional study had gone into the program and we are now fairly sure of the various parameters of the system. It is planned to give a briefing at a later date to DD/P including FI, the Office of Science and Technology and the R&D Panel. At the DD/P briefing, the presentation will center on the need and operational profitability of a [REDACTED] system and will be light on technical details.

25X1C

For S&T, we will be prepared to cover all phases of the project in detail with emphasis on its technical aspects. For the R&D Panel, the operational aspects will again be emphasized, but we will also be ready to go into detail on any aspects of the program. There followed a brief discussion on whether SR, FE and FI groups should be briefed individually, and it was agreed that an attempt would be made to get them together for a single briefing. [REDACTED] stated that he believed that the R&D Panel would make the recommendation to the Director on whether or not the Agency should undertake this program.
